# Restaurants & Bars

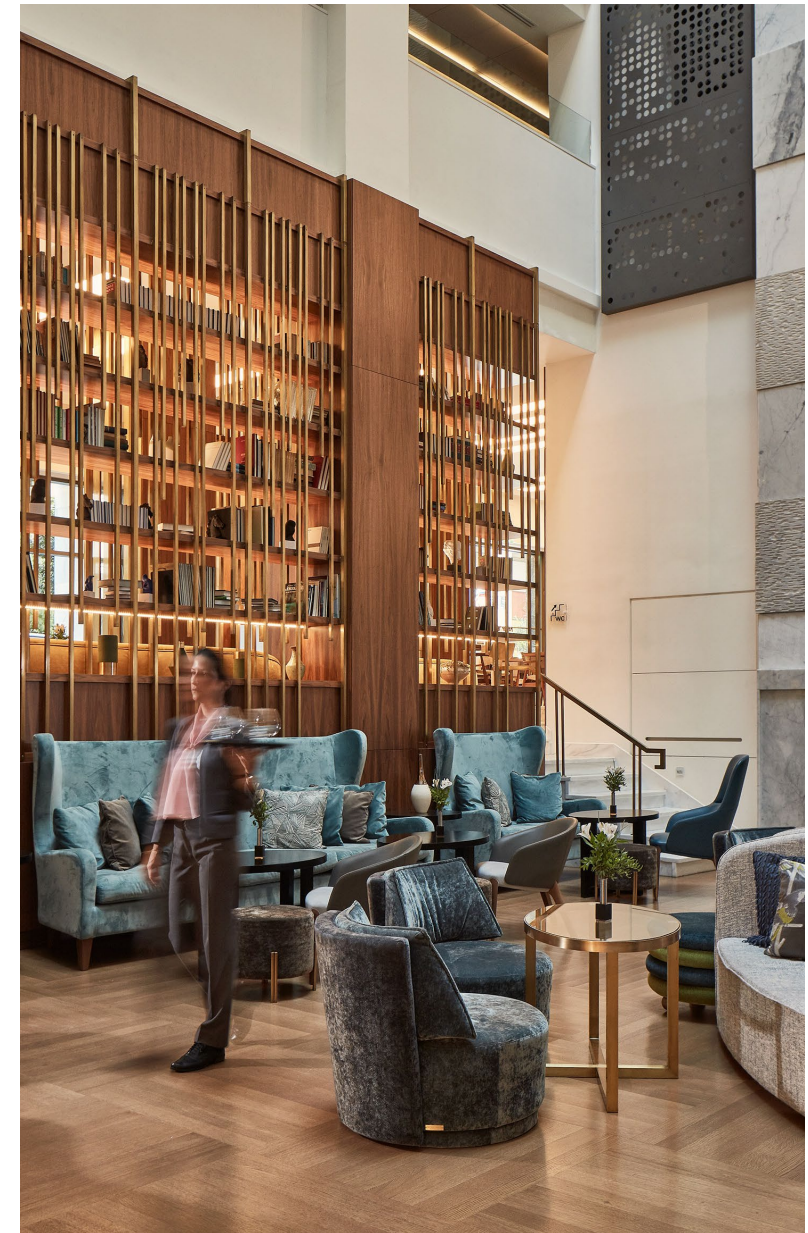

## Coffee & More

A beautiful open air area bathed in the magical light of Athens. It is ideal for a quick coffee, a meeting or even a light meal. The lounge has a view of the beautiful work of art by Fasianos, one of the greatest Greek artists of the 20th century.

# METROPOLIS

• ROOF GARDEN •

# METROPOLIS

• ROOF GARDEN •

**Dining under the  
Acropolis light**

The Metropolis Roof Garden with views of the Acropolis is on the tenth floor of this hotel and is the ultimate dining experience in Athens. It offers a unique opportunity to enjoy today's creative Greek cuisine and is one of the newest gourmet restaurants in Athens.

## View & Relax

The perfect way to end your day in Athens, the birthplace of Greek culture, is to relax in the M bar on the 10th floor of the hotel. With its views of the Acropolis and the old Plaka neighbourhood, it is the ideal place to enjoy one of our signature cocktails.

# LOBBY

- a burger lounge -

The culinary corner  
of Athens

In the culinary corner of Athens, on the ground floor of Electra Metropolis, we have created an American style burger lounge where you can experience first-hand the heartbeat of the city with neat flavours and mouthwatering cocktails.

The ideal spot where the sound and magic of Athens are combined with a tailor made gustatory experience that you will never forget.

## Meetings & Events

---

### EXPLORE

Exceed any expectation by trusting us with your event organization and execution. 4 well-designed, naturally lit rooms can serve the needs of maximum 160 participants, covering any type of event regardless of size or targeting (social, political, corporate etc.). Every event can be fully customized, adding high-end bespoke services at will. A big added plus: the surprising visual access to the Ancient Themistoclean Wall (Jasmine incorporates a section of it), that makes for an unforgettable setting.

# Wellness & Fitness

## Spa & Fitness

Today's modern traveller always has three eternal Greek words in the back of his mind when visiting a five-star hotel. These words, which begin with the venerable prefix “ευ” (meaning “good”), are ευεξία, ευζωία and ευτυχία meaning wellness, well-being and happiness.

You can make sure your stay at the Electra Metropolis includes all three of these by visiting the Aegeo Spa. (Gym, indoor heated pool with jacuzzi, sauna, hammam offered free of charge. Massage treatment services upon charge.)

And, as well as enjoying the spa treatments, do not forget to check out the ancient wall of Athens, part of the natural décor incorporated into the Spa.

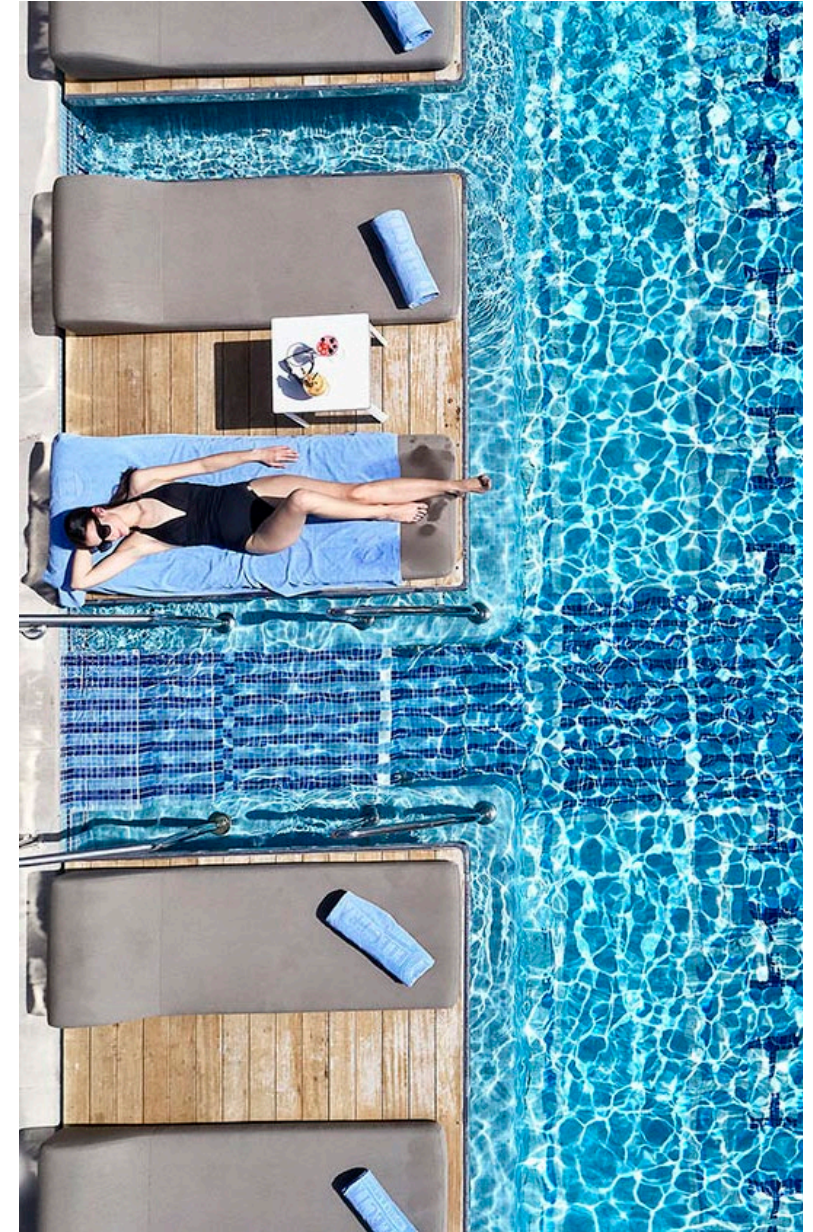

## Outdoor Pool

Swim under the Sky

One of the most pleasant experiences that our guests can enjoy is a swim in this exceptional and unusual pool on the 10th floor of the hotel. We have used predominantly glass in the design and the pool offers a magnificent view of Lycabettus Hill.

# SUSTAINABILITY

## Discover Ancient Spots

Part of the Themistocles wall of ancient Athens dominates the basement of the hotel. The visitor can travel through time and learn the history of the wall by following the marking inside the hotel and learning more information from the reception.

## ΑΡΧΑΙΑ ΑΘΗΝΑ

## ANCIENT ATHENS

### Αναλημματικός Τοίχος

Θεμιστοκλέους Τείχος της Αθήνας 478 π.Χ.

Βρισκόμαστε έξω από την αρχαία Αθήνα και μέσα στην κάβα της πόλεως, που σκάφηκε γύρω από το τείχος της πόλης. Το τμήμα του τείχους, που βλέπουμε σε αυτή την αίθουσα, κτίστηκε για να στηρίξει τον δρόμο που περνούσε ακριβώς από πάνω και οδηγούσε σε μια από τις πύλες της αρχαίας πόλης, την Πύλη του Διοκράτους. Το μήκος του τοίχου που είναι 10,70 μ., φέρνει τον πόσο ηλιόπι ήταν η πόρος. Το καλύτερο μέρος αυτού του τοίχου κτίστηκε με κροκαλομαγιά λίθους, που είναι ιδιαίτερα ανθεκτικοί στις καταπονήσεις και αντοχότεροι από τον μαρμάρινο, που χρησιμοποιήθηκε για τις ανώτερες στρώσεις.

Ο τοίχος, που φαίνεται μέσα από το γυάλινο δάπεδο που μιμνήσκοντο και ορατά είναι στην οδό Βουλής έξω από το ξενοδοχείο, είναι ο αντίστοιχος στερεωτικός τοίχος της άλλης πλευράς του δρόμου. Στο spa και τους χώρους υγιεινής του ξενοδοχείου διατηρείται τμήμα αγώνων, που τροφοδοτούσαν με νερό την πόση.

### Retaining Wall

Themistoclean Wall of Athens 478 BC

We are standing outside ancient Athens and inside the moat that was dug around the city walls. The section of the wall we see in this room was built to support the road which passed right above it, leading to one of the gates of the ancient city the Gate of Diocrates. The length of the wall, which is 10.70 m. (about 35.10 ft.), reveals the width of the moat. The lower part of this wall was built with conglomerate stones, which are particularly durable against stresses and strains, and not as costly as the limestone used for the upper layers.

The corresponding retaining wall on the other side of the road is visible through the glass floor of the bistro-café and continues outside the hotel, towards Vouliagata street. A section of the pipeline system that supplied the moat with water is preserved at the spa and adjacent WC of the hotel.

### Ταυτότητα του Τείχους

Όνομα	«Θεμιστοκλέου» τείχος, Κατοικούστικη με προσηγορία του Αθηναίου στρατηγού Θεμιστοκλή
Τόπος γέννησης	Πόλη-κράτος της Αθήνας
Πολιτεία	Δημοκρατία
Έτος γέννησης	478/8 π.Χ.

### Identity of Fortifications

Name	"Themistoclean" wall. Constructed on the initiative of the Athenian general, Themistocles.
Place of Birth	City-state of Athens
Form of Government	Democracy
Date of Birth	478/8 BC

Το τείχος με συνολικό μήκος περίπου 6,4 χιλιόμετρα είχε τουλάχιστον 13 πύλες. Οι πύλες προστατεύονταν από δυο πόρτες. Μπροστά από τις πύλες υπήρχε στενός χώρος, όπου ο εχθρός κινδύνευε να παγιδευτεί κατά την έξοδο.

Σε διάστημα περίπου 1000 ετών, από το 478 π.Χ. μέχρι και τα μέσα του 9ου αι. μ.Χ., οι ακυρώσεις της πόλης επισκευάζονταν και ενισχύονταν με νέες προσθήκες.

Πόσο δύσκολο ήταν να περάσει ο εχθρός τα τείχη;

Για να μπει ο εχθρός στην πόλη, έπρεπε πρώτα να διασχίσει τάραχο βάθους 3-11 μέτρων και πλάτους 8-12,5 μ. Μετά να υπερβεί προστασία, που έφτανε σε ύψος το 5,5 μέτρο. Και τέλος να περάσει από τα τετραγώνια 9-10 μ.

The total length of the wall was roughly 6.4 kilometers. At least 13 gates were built along the wall. The gates were protected by two towers. A narrow space was formed in front of the gates, where the assaulting enemy was in danger of being trapped.

Within a timespan of about 1000 years, from 478 BC up to mid-6th century AD, the fortifications of the city were being repaired and enhanced with new additions.

How hard was it for the enemy to enter the city?

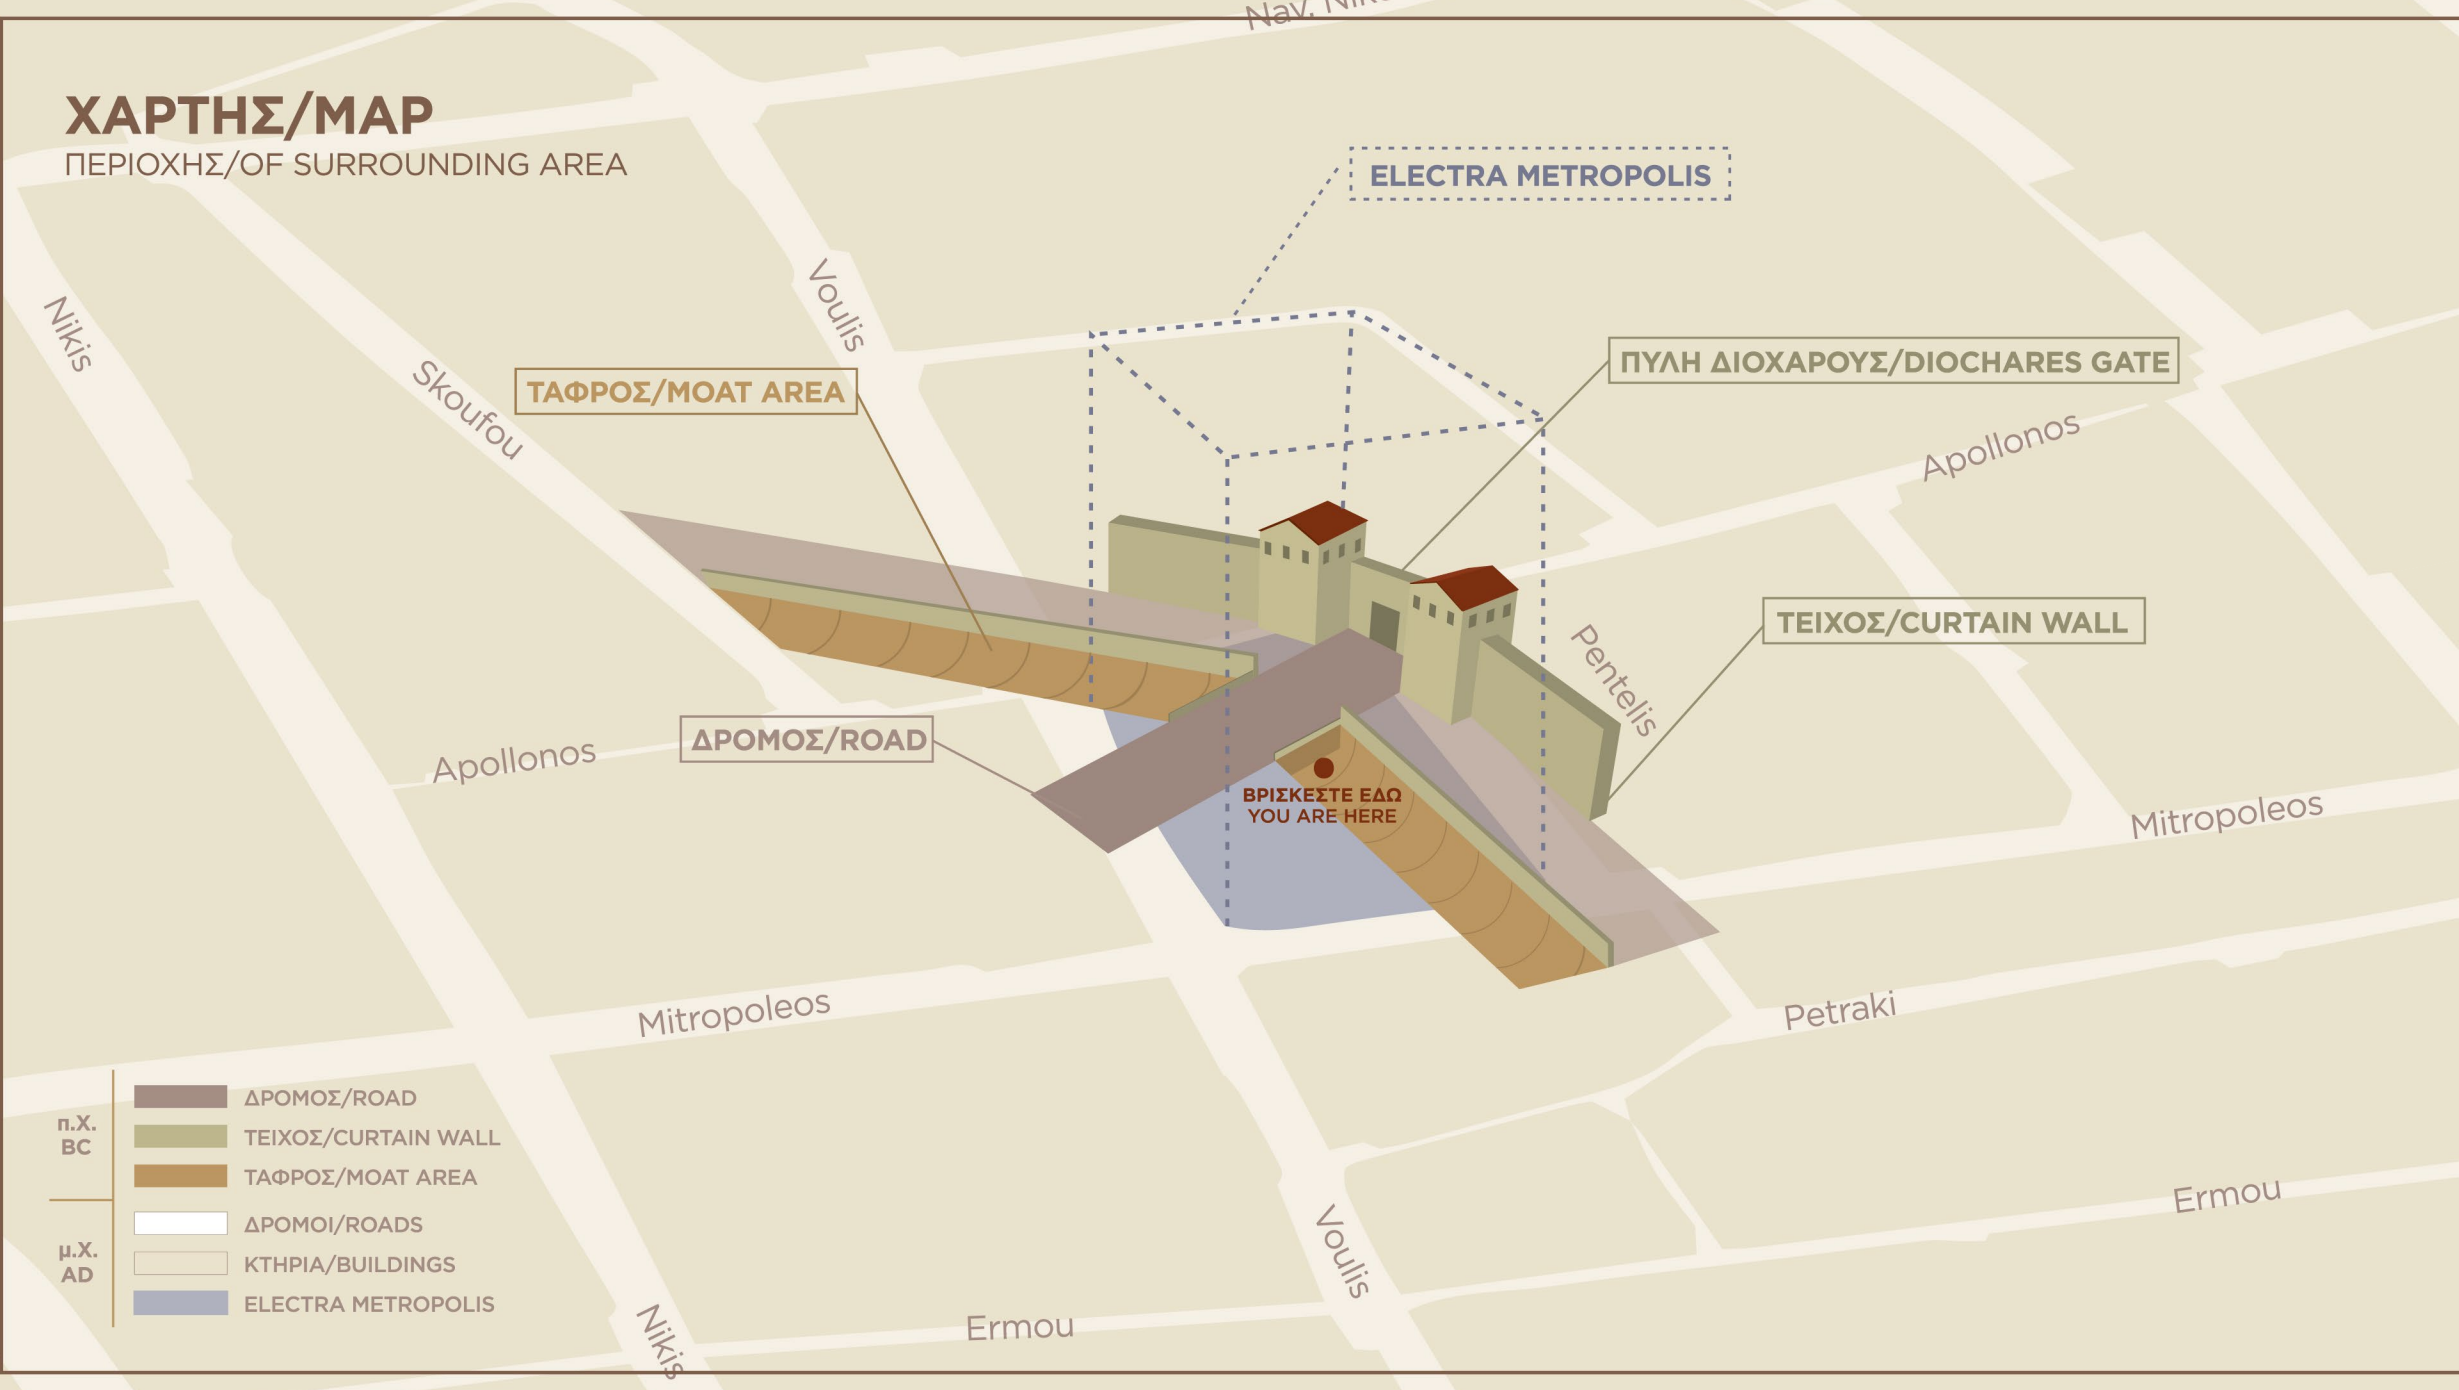

The enemy needed to cross a moat which was 3-11 m. deep and 8-12.5 m. wide, a "protelichisma" (defensive wall located outside the main walls) reaching 5.5 m. in height and a curtain wall reaching 9-10 m. in height.
